INTRODUCTION

A dedicated and results-driven aspiring developer with hands-on experience in building web and mobile applications through freelance and academic projects. Adept at creating responsive interfaces and functional systems, with a strong commitment to continuous learning and professional growth in the tech industry.

WORK EXPERIENCE

Department of Social Welfare and Development - Internship

February 2026 - June 2026

Assisted in the development and improvement of web-based system interfaces and workflows. Supported front-end tasks, layout updates, testing, and documentation while collaborating with the team during the internship.

Website & Mobile Developer - Freelancing

April 2026 - Present

Developed website and mobile project solutions for clients and students based on their required features and design preferences. Created responsive interfaces, implemented functionality, fixed issues, and helped turn project ideas into working systems.
